

Tool: Learner-Centered Experiences Educator Choice Boards

Embedding choice into learning experiences for both students and adults is a powerful way to foster agency and make sure learning is meaningful, authentic, and personalized to each learner. This tool offers resources for educators that support growth in all areas of learner-centered experiences.

Choose which element of learner-centered experiences most aligns with your learning goals and then explore the choice board resource(s) that are most relevant to your practice.

Authentic Meaningful, relevant learning grounded in real-world challenges and applications for authentic audiences.

- *Design real-world learning experiences*
- *Provide opportunities for anytime/anywhere learning*
- *Create authentic products for authentic audiences*

Inclusive and equitable Collaborative and culturally relevant learning communities where every learner feels they belong and can tap into their full academic & social potential, contributing to the collective success of their community.

- *Cultivate a sense of belonging*
- *Nurture a meaningful, engaging learning community*
- *Partner with learners to reach their full potential*

Personalized Co-constructed learning based on each learner's unique strengths, skills, interests, and needs.

- *Develop learners' metacognition, self-regulation, and perseverance*
- *Co-construct the learning experience*
- *Customize learning opportunities based on each unique learner.*

Competency-based An evidence-based instruction, assessment, and feedback cycle that drives learning based on progress toward desired knowledge, skills, and dispositions.

- *Harness assessment & data as learning tools*
- *Use a mastery approach to learning*
- *Measure mastery through performance-based assessments*
